Policy Groups

This page of Product Settings is visible only when enabled by Concur.

Section 1: Overview

A policy group is a group of users that have a different expense or invoice policy. These users may need different expense types to choose from, or may have different expense limits. The **Policy Groups** page of Product Settings allows the administrator to create up to five policy groups for expense, and five for invoice. Once you have created the groups, you can assign them expense types and limits on other pages in Product Settings.

Example

You want to allow Sales to have unique expense types and allow Executives to have expense limits that exceed those of other departments.

Section 2: Configuration

Enable Policy Groups by Product

On the **Policy Groups** page, you can enable different policy groups for users.

Access the Policy Groups Page

▶ To access the Policy Groups page:

1. Click **Administration > Expense Settings** or **Expense & Invoice Settings** or **Invoice Settings**.

2. In the **Product** list, click *Expense* or *Invoice* or *Request*.

3. In the **Capturing Spend** section, on the **Policy Groups** tab, click **Edit**.

The **Policy Groups** page appears.

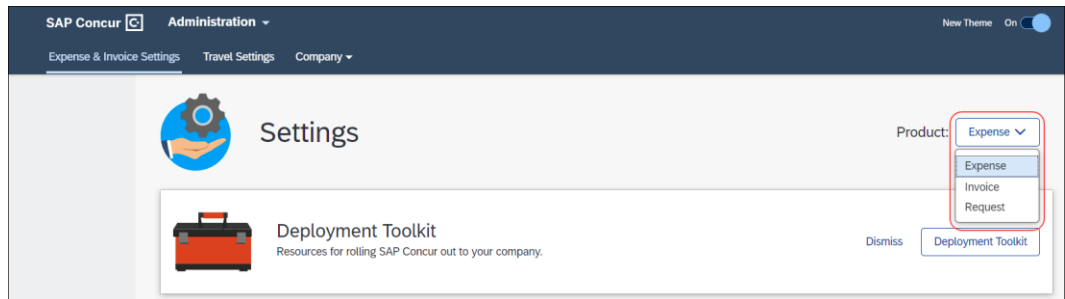

Configure Policy Groups for Expense/Expense & Request

On the **Expense/Expense & Request** tab of the **Policy Groups** page, the admin creates up to 5 policy groups for each country.

Access the Expense/Expense & Request Tab

▶ To access the Expense/Expense & Request tab:

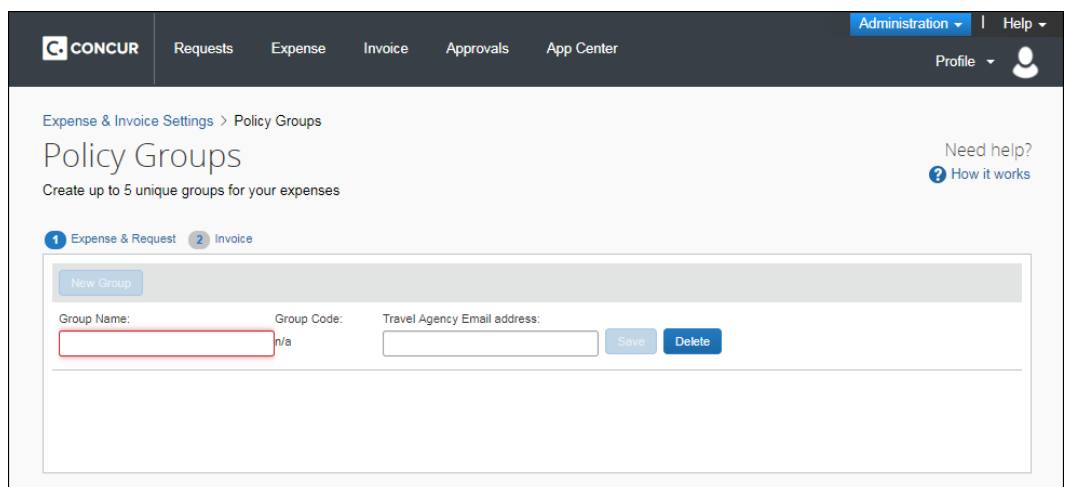

1. Click **Administration > Expense Settings** or **Expense & Invoice Settings** or **Invoice Settings**.
2. In the **Product** list, click *Expense* or *Invoice* or *Request*.

3. In the **Capturing Spend** section, on the **Policy Groups** tab, click **Edit**.

The **Policy Groups** page appears.

4. Click **Expense/Expense & Request** (tab).

The screenshot shows the 'Policy Groups' configuration page. At the top, there is a breadcrumb 'Expense & Invoice Settings > Policy Groups' and a 'Need help? How it works' link. Below the title, it says 'Create up to 5 unique groups for your expenses'. There are two tabs: 'Expense' (selected and circled in red) and 'Invoice'. A 'New Group' button is at the top left. Below it, there are two input fields: 'Group Name:' and 'Group Code:'. The 'Group Code' field contains 'n/a'. There are 'Save' and 'Delete' buttons to the right of the input fields.

Create Policy Groups for Expense/Request

► **To create policy groups:**

1. (Optional) On the **Expense/Expense & Request** tab, from the **Select the desired country to create a new group** list, click the desired country.
2. In the **Group Name** field, type a group name.

NOTE:The default policy group will not be available once the admin has created one or more policy groups.

3. For Request groups, enter the **Travel Agency Email address**. This email address receives all the email notifications sent to the travel agency for requests for users in this group.

NOTE:The **Travel Agency Email address** field is the method for associating users with a travel agent. Even if all users are in one group, you should create a group for them in order to associate a travel agent with them, and assign them to the group on the **User Details** page.

For more information about the travel agency email notifications, refer to the *Shared: Default Configuration Settings Setup Guide*.

4. Click **Save**.
5. Repeat these steps until all desired groups have been created.
6. (Optional) If you intend to eventually populate your user list with an import file, then make a note of the system-generated **Group Code** assigned to each policy group.

The screenshot displays the 'Policy Groups' configuration interface. At the top, it indicates 'Expense & Invoice Settings > Policy Groups'. Below this, there are tabs for 'Expense & Request' (active) and 'Invoice'. A dropdown menu shows 'UNITED KINGDOM' as the selected country. A 'New Group' button is visible. Below the button, there are three rows of group configuration. Each row includes a 'Group Name' field, a 'Group Code' field (highlighted with a red circle), and a 'Travel Agency Email address' field with 'Save' and 'Delete' buttons. The groups shown are 'Human Resources' (GB1), 'Information Technology' (GB2), and 'Legal' (GB3).

Delete Policy Groups for Expense/Request

▶ **To delete a policy group:**

On the **Expense/Expense & Request** tab, click **Delete** for the policy group. You cannot delete a policy group if a user is assigned to it.

Configure Policy Groups for Invoice

On the **Invoice** page, the admin creates up to 5 policy groups.

Access the Invoice Tab

▶ **To access the Invoice tab:**

1. Click **Administration > Expense Settings** or **Expense & Invoice Settings** or **Invoice Settings**.

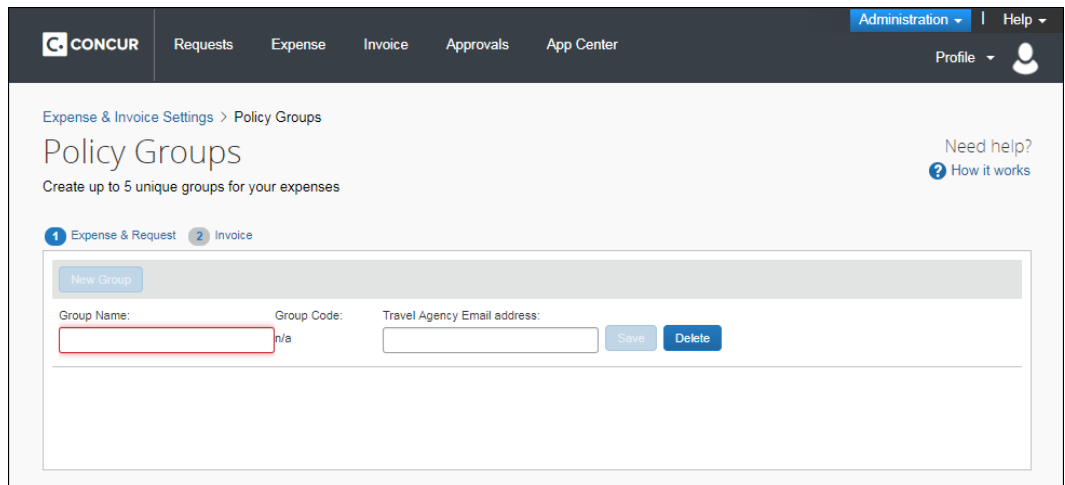

2. In the **Product** list, click *Expense* or *Invoice* or *Request*.

3. In the **Capturing Spend** section, on the **Policy Groups** tab, click **Edit**.

The **Policy Groups** page appears.

4. Click **Invoice** (tab).

Group Name:	Group Code:	Save	Delete
INV-GRP1	GBINV2		
Group Name:	Group Code:	Save	Delete
INV-GRP2	GBINV3		

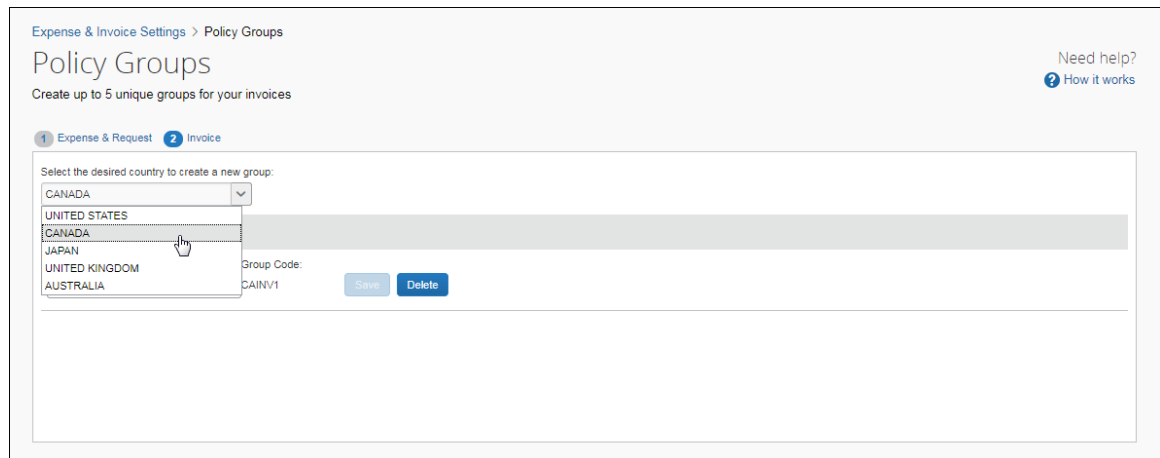

TIP: Make a note of the **Group Code** value so that, if you import users, you can assign the user to a group by the required code value in the spreadsheet you will use to import the user.

NOTE: On the **Users** page of Product Settings, you will be required to assign a user to a group or to all policy groups by selecting the specific group or the **All** option in the **Invoice Policy Group** list. If you have configured the Policy Groups feature for Invoice, you cannot add or edit a user without performing this step.

NOTE: The default policy group will not be available once the admin has created one or more policy groups. If your company is using Capture Processing, ensure that you change the policy in Capture Processing to match the one in Invoice.

POLICY GROUPS AND COUNTRY PACKS

If your company is using the Country Pack feature and more than one country pack has been activated, you will be able to select a country in the **Select the desired country to create a new group** list, and then create policy groups for that country.

For more information about country packs, refer to the *Country Packs With VAT Client Fact Sheet*.

Delete Policy Groups for Invoice

▶ To delete a policy group:

On the **Invoice** tab, click **Delete** for the policy group. You cannot delete a policy group if a user is assigned to it.
