<td>Updated the copyright; no other changes; cover date not updated.</td>
</tr>
</tbody>
</table>
| July 26 2017     | Added a clarification note: Even if the employee returns the entire outstanding balance, the employee will continue to see the cash advance balance, $0.00, in their profile until the extract job runs. The extract job changes this status from Issued to Completed and removes the cash advance from the employee's profile.  
Added a clarification note: Exchange rates can be auto-populated when the cash advance has a date entered if both of these settings (Expense Admin > Site Settings page) are enabled:  
- Allow Cash Advance Administrator to Create & Issue Cash Advances  
- Update Cash Advance exchange rate on expense entries |
| December 14 2016 | Changed copyright and cover; no other content changes.                                                                                                       |
| October 28 2016  | Updated the guide content to new corporate style; no content changes.                                                                                           |
| April 10 2015    | Added information about viewing attached images.                                                                                                               |
| February 17 2015 | Removed references to the current UI; no other content changes.                                                                                               |
| January 16 2015  | Updated the screen shots to the enhanced UI  
Clarified time on the email notifications                                                                                                                     |
| October 14 2014  | Added information about the two user interfaces; no other content changes                                                                                       |
| March 11 2014    | Added information about the Send Back to Employee button                                                                                                       |
| January 17 2014  | Added information about directly issuing cash advances and new functionality on the Cash Advance Admin page.                                                                 |
| October 18 2013  | Addition of the Provide Default Exchange Rate for Cash Advance Issuance setting to the Site Settings tool – this displays the default exchange rate to the Cash Advance administrator in the Cash Advance Details dialog box when issuing cash advances in a foreign currency |
| April 3 2012     | Removed all references to the legacy Authorization Request feature in Concur Expense  
Changed any references to Concur’s Travel Request service to either Request or to Authorization Request, depending on the situation  
No other content changes                                                                                                                        |
<p>| December 28 2012 | Made rebranding and/or copyright changes; no content changes.                                                                                                 |</p>

Cash Advance Admin

Section 1: Permissions

You may or may not have the correct permissions to use this tool. You may have limited permissions, for example, you can affect only certain groups and/or use only certain options (view but not create or edit).

If you need to use this tool and do not have the proper permissions, contact your company's Concur administrator.

Also, be aware that some of the tasks described in this guide can be completed only by Concur. In this case, your company must initiate a service request with Concur Client Support.

Section 2: Overview

Typical Cash Advance Process

Depending on company policy, employees may be able to request a cash advance before going on a trip or incurring an expense. Requesting a cash advance is typically a three-step process:

1. If an employee is allowed to use cash advances, the employee creates and submits the cash advance request in Expense.

2. Once submitted, the request is routed to the employee's cash advance approver.

   **NOTE:** The cash advance approver may or may not be the employee's manager and can be different from the employee's expense report approver.

3. Once approved, the cash advance request is sent to a Cash Advance administrator who reviews it and then either issues it or returns the request to the user (for example, for more information).

   **NOTE:** In this case, the term "issue" means final approval in Expense.

Once the Cash Advance administrator "issues" the cash advance, the company pays the actual cash to the employee. Eventually, the employee must create an expense report to account for the cash.
Note the following about the cash advance workflow:

- Like Expense, there may be more than one cash advance approver identified in a cash advance workflow.
- An approval step is not actually required. If there is no approval step, then the request goes directly to the Cash Advance admin.

Receiving Email Notifications of a Cash Advance Pending Issuance

This feature can be configured so the Cash Advance admin receives emails of pending cash advances on the **Company Admin** page, using the **User Permissions** option on the left menu. Assign the Expense Cash Advance Administrator role to one or more users. On the bottom of that same page (below the group assignment area) select (enable) the **Send Cash Advance Pending Issuance Emails** check box.

Refer to the *Shared: User Administration User Guide* for more information.

**NOTE:** These emails are sent immediately to the outbound email queue when the cash advance request is routed to the Cash Advance admin. The admin generally receives the email within minutes.

The only reason that an email is delayed is if there are issues with the outgoing or incoming email systems.

Cash Advances Using a Company Card

Cash advances can also occur through an employee's company charge card or ATM. If this is the case, then the above steps would not be applicable because the cash advance has already been issued by the company card vendor, is not requested by the employee within the system, and will not follow an approval process or workflow.

However, company card cash advances or those transactions coming from a company card feed (see below) are accessible from the **Cash Advance List** page within Expense and are not displayed on the **Company Card** page.

If an employee uses a company card to receive an ATM cash advance but that employee's group does not support cash advances, a **Cash Advance List** page appears in Expense for that employee, but there will not be a **Cash Advance Request** link available for other cash advances.
Imported Transactions of Type Cash Advance

The CCCI importer will detect if a transaction of type *ATM Withdrawal* is imported as a cash advance. However, if no cash advance account code is associated with the owner of the imported cash advance, the system allows the import but automatically hides the transaction and allows assignment only after the account code is created for the user. At that time, the admin can assign the transaction manually.

For more information about searching for and assigning hidden cash advance transactions to an employee, refer to *Expense: Company Card Administrator User Guide*.

Directly Issued Cash Advances

The Cash Advance admin can issue a cash advance directly to a user – without waiting for the user to submit a request – if the user has a cash advance account code assigned. If the Cash Advance feature is not enabled for that user's group, the user can utilize the issued cash advance but cannot request any additional advances.

Section 3: Cash Advance Admin Tool

The Cash Advance Admin tool is used by a client user/administrator with the Cash Advance Administrator role. With the Cash Advance Admin tool, the administrator can:

- Review cash advance history of employees
- Issue cash advances
- Send cash advance requests back to the user (perhaps for more information)
- Record manually-returned cash amounts from an employee
- View employee balances

**NOTE:** If the company uses Concur Request and users can request cash advances in Request, then request information may appear in Cash Advance Admin. For more information, refer to the *Concur Request: Cash Advance Setup Guide*. 
Section 4: Procedures

Accessing Cash Advance Admin

To access Cash Advance Admin:

1. Click Administration > Company > Tools.

2. Click Cash Advance Admin (left menu). The Employee Balance tab of the Cash Advance Admin page appears.

- Use the Employee Balance tab to search for employees with cash advances – with or without outstanding balances – and to create and issue a cash advance (if configured for your site).

- Use the Cash Advances tab to search for cash advances that have not yet been issued.

NOTE: If the company uses Concur Request and users can request cash advances in Request, then request information may appear in Cash Advance Admin. For more information, refer to the Concur Request: Cash Advance Setup Guide.
Searching for Employees

You can search for employees using the following parameters:

- Specific employee information (such as employee name)
- Oldest Cash Advance Date
- Cash Advance Balance

Employees that match these parameters will appear in the search results, regardless of whether they have an outstanding cash advance balance.

Viewing an Employee's Balance and the Cash Advance Details

- To view cash advance details:
  1. Search for an employee.
  2. Click the name of the employee. The employee's active cash advances appear at the bottom of the page.
Section 4: Procedures

NOTE: If the company uses Concur Request and users can request cash advances in Request, then request information may appear in Cash Advance Admin. For more information, refer to the Concur Request: Cash Advance Setup Guide.

3. Use the **Show Only** area to change the results.

<table>
<thead>
<tr>
<th>Cash Advance Name</th>
<th>Field Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Active Cash Advances</td>
<td>All cash advances that are not Cancelled or Completed</td>
</tr>
<tr>
<td>Approved Cash Advances</td>
<td>All cash advances with the status of Approved</td>
</tr>
<tr>
<td>Issued Cash Advances</td>
<td>Cash advances that have been marked as Issued</td>
</tr>
<tr>
<td>Cancelled Cash Advances</td>
<td>All cash advances which you have chosen not to issue</td>

<tr>
<td>Completed Cash Advances</td>
<td>All cash advances which have been approved, issued, fully utilized or returned</td>
</tr>
<tr>
<td>All Cash Advances</td>
<td>All cash advances</td>
</tr>
</tbody>
</table>

4. To view the details, click the desired cash advance name. The cash advance opens on the **Details** tab.
The **Cash Advance Details** tab displays the following fields, based on the configured form definition:

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name</td>
<td>The name of the cash advance.</td>
</tr>
<tr>
<td>Cash Advance Amount</td>
<td>The amount of the cash advance request.</td>
</tr>
<tr>
<td>Purpose</td>
<td>The purpose of the cash advance.</td>
</tr>
</tbody>
</table>
| Exchange Rate       | The exchange rate at which the cash advance was issued if the amount requested was in a currency other than the employee's reimbursement currency.  
- OR -  
Provides the default exchange rate to the Cash Advance administrator when issuing cash advances in a foreign currency. |
| Starting Balance    | The original balance of the cash advance in the employee's reimbursement currency. |
| Available Balance   | The unused amount in the employee's reimbursement currency. This is based on all submitted reports. |
| Travel Start Date   | The date the user's trip is scheduled to begin.                             |
| Travel End Date     | The date the user's trip is scheduled to end.                               |
5. View the tabs:
   - **Comments History**: Comments entered by all approvers, the employee, and the admin for this cash advance. You can add additional comments to a cash advance when you issue or cancel it. The admin cannot add comments to a cash advance once it is issued.
   - **Expenses**: Expenses (if any) associated with this cash advance.
   - **Audit Trail**: Activity associated with this cash advance.
   - **Approval Flow**: The cash advance workflow.
   - **Documents**: The images attached to the cash advance.

### Issuing or Sending Back a Cash Advance

Cash advances can be created in three ways:

- A cash advance request comes from an employee via the normal approval process. If a cash advance is requested by an employee, it goes through an approval process and then on to the Cash Advance administrator. At that time, the admin can issue or send the cash advance back to the employee.

- A cash advance may be included as part of a request, this then initiates the cash advance workflow and subsequently arrives in the Cash Advance admin’s queue for review and issuance.

- A Cash Advance administrator may enter and issue the cash advance directly, bypassing the cash advance approval process. The admin can create cash advances for users that are in a group that does not have a cash advance workflow. The user can utilize the created cash advance but is not able to request additional advances.

**NOTE:** If the company uses Concur Request and users can request cash advances in Request, then request information may appear in Cash Advance Admin. For more information, refer to the *Concur Request: Cash Advance Setup Guide*.

To issue or send back a cash advance:

**NOTE:** If there is more than one user with the Expense Cash Advance Administrator role, the admin will not be allowed to issue cash advances on their behalf.

1. Locate the desired cash advance as described in *Viewing an Employee’s Balance and the Cash Advance Details* in this guide.

2. Select the desired cash advance.
3. Click **Issue** or **Send Back to Employee**.

4. If you clicked **Send Back to Employee**, the **Cash Advance Details** page appears. Enter a comment, and click **Send Back to Employee**.
   - If you issue the cash advance, the company can now pay the cash to the employee. Later, the employee must create an expense report to account for the cash.
   - If you send the request back to the employee, you must enter a comment.

### Entering and Issuing a Cash Advance in One Step

The Cash Advance admin can issue a cash advance to an employee – without the employee initiating it (described below). This bypasses the normal workflow, allowing a simplified process. This feature is enabled by default, but can be disabled by clearing the **Allow Cash Advance Administrator to Create & Issue Cash Advances** setting in Site Settings.

**NOTE:** Exchange rates can be auto-populated when the cash advance has a date entered if both of these settings (Expense Admin > Site Settings page) are enabled:
- Allow Cash Advance Administrator to Create & Issue Cash Advances
- Update Cash Advance exchange rate on expense entries

Refer to **Expense: Site Settings Setup Guide** for more information.

### Creating and Issuing the Cash Advance

This feature is available only to the Cash Advance admin.

**To create and issue the cash advance:**

1. The Cash Advance admin uses the **Employee Balance** tab to search for the desired employee.
2. With the employee selected, click **Create & Issue:**

3. The **Create a New Cash Advance** window opens. The administrator then names the advance, specifies the amount and currency, and adds a purpose and comment as needed:
4. Click **Issue** to issue the cash advance.

**Searching for Cash Advances**

The Cash Advance admin can search for cash advances on the **Cash Advance** tab by:

- Cash advance name
- Employee first or last name
- Request date
- Amount requested
- Requested disbursement date
- Start or end date
- Account code
- Cash advance key
- Group
- Cash advance status
To search for and view a cash advance:

1. On the **Cash Advances** tab, enter search criteria.
2. Click **Search**. The search results appear in the bottom pane.
3. Click the name of the desired cash advance. The cash advance opens to the **Details** tab.

For more information on the details page, refer to *Viewing an Employee’s Balance and the Cash Advance Details* in this guide.

**Recording Cash Returned Manually by the Employee**

If all or part of a cash advance is turned in to the cash advance administrator by the employee, this information can be recorded against the cash advance. The outstanding balance of the cash advance is immediately updated to reflect this return of funds. This is done using the **Record Return Amount** button.

The cash advance must be in the following state to use this feature:

- The cash advance is in an Issued state
- The cash advance balance is above a balance of zero
- The Payment Type value is Cash

**Configuring Expense for this Feature**

This feature is enabled by default. The Expense Configuration administrator uses the Site Setting *Allow Cash Advance Administrator to Record Return Amount* setting to activate the feature. When they do this, the *Record Return Amount* button appears.

📖 For more information, refer to the *Expense: Site Settings Setup Guide* and the *Expense: Cash Advance Setup Guide*.

**Using the Feature**

When receiving a return of funds from the user, the Cash Advance administrator searches for the employee in the **Employee Balance** tab, clicking the name directly to populate rows in the **Cash Advances** section:

Selecting the row under Cash Advance Name, the administrator clicks *Record Return Amount* (this button is activated) to display the **Cash Advance Details** window.
The amount is entered in **Amount Returned**, and an optional comment is added. If the cash advance was originally issued in a currency other than the user’s reimbursement currency, the amount returned may be recorded in either currency.

**What the User Sees**

The user can review the status of the cash advance by clicking **Expense** > **Cash Advances** (in the sub-menu) > **View Cash Advances**, selecting the desired cash advance name to open the cash advance to the **Details** tab, then clicking **Expenses**. The **Expenses** tab shows the returned amount and the balance amount.

The user receives an email notification (if configured) when the system notes the change in cash advance balance due to the returned cash amount.
**NOTE:** The currency of the returned amount is of cash advance or cash advance request currencies only.

**NOTE:** This data is recorded with a status of *Reverse Issuance* in the accounting extract file.

**NOTE:** Even if the employee returns the entire outstanding balance, the employee will continue to see the cash advance balance, $0.00, in their profile until the extract job runs. The extract job changes the status from *Issued* to *Completed* and removes the cash advance from the employee’s profile.
