## Revision History for this Guide

Date	Notes / Comments / Changes
January 26, 2022	Updated the copyright year; no other changes; cover date not updated
August 30, 2021	Removed note re: Mask Medical Data, which is no longer applicable.
April 24, 2020	Added note to Guest Travel Booking; report is only available to companies in the US Datacenter.
February 14, 2020	Updated the copyright; no other changes; cover date not updated
July 15, 2019	Updated Itinerary Source and Record Locator section under Available Travel Data
March 27, 2019	Removed reference to the Flight Summary report
November 16, 2018	Removed reference to the Meeting reports guide
November 5, 2018	Several reports retired
July 18, 2017	Removed Car Rental Receipt Details report and Hotel Receipt Detail report, since they are no longer used
June 1, 2017	Updated the description for the Flight Segment Details report
August 1, 2016	Removed a reference to SWABIZ (retired as of July 31 2016)
December 17, 2015	Added additional information about assigning permissions
August 25, 2015	Added Browser Report Updated Expiring Credit Cards
May 9, 2014	Changed references to Open Booking; now called TripLink Changed references to Analysis/Intelligence; now called Concur Insight
December 23, 2013	No content changes for December; updated cover and copyright
November 25, 2013	As of September, the Amtrak Direct Connect Cancellations report has been available in Standard Edition
September 6, 2013	Full revision

# Travel Reporting

---

## Section 1: About this Guide

### In this Guide

This guide describes the real-time Concur Travel reports:

- General
- Travel

### ***Professional and Standard Edition ONLY***

This guide describes reports for Professional Edition and Standard Edition. The descriptions on the following pages indicate if the report applies to Professional, Standard, or both.

### **NOT in this Guide**

There are other features and reporting solutions offered by SAP Concur. That information is **not** included in this guide. Instead, they have their own guides, as noted below:

- **Other features:** This **Reporting** section of Concur Travel includes other reports. They include:
  - ♦ **TripLink** (formerly Open Booking): These reports appear only if your company uses TripLink. Refer to the *TripLink User Guide*.
  - ♦ **Mobile:** These reports appear only if your company uses Concur for Mobile. Refer to the *SAP Concur's Mobile App – Reports* guide.
- **Other product editions:** Other editions, such as Small Business Edition, are **not** addressed here. Refer to the documentation for the other editions.
- **Intelligence/Analysis (Cognos):** This guide **does not** include information about the reports generated or managed in SAP Concur Analysis/Intelligence (using Cognos). For information those reports, refer to the Analysis/Intelligence guides.

## Available Travel Data

Travel provides reports on trips, regardless of whether the trip was booked online or through an agency (assuming the TMC has set up offline reporting for the site). Travel updates reports in real time and includes information from every stage of the process – from the initial build of a Passenger Name Record (PNR) through all ticketing transactions. Additionally, the data that Travel collects directly from a vendor or consolidator for online transactions includes all necessary details about the trip should you need to make changes to the tickets purchased. This data collection provides a valuable opportunity to analyze the difference in fares presented on websites and in the Global Distribution System (GDS).

Concur Travel compiles reports from underlying databases that are updated by an automated feed process with information found in trip itineraries. This allows you to make decisions based on the latest information available.

### ***Itinerary Source and Record Locator***

Certain Travel reports include *Indirect Concur TripLink* and *Direct Concur TripLink* in the **Itinerary Source** search dropdown.

With *Indirect Concur TripLink*, user email is forwarded to [plans@concur.com](mailto:plans@concur.com).

With *Direct Concur TripLink*, a user books a reservation on a connected TripLink supplier site and the supplier posts it via a Concur Travel API.

---

**NOTE:** The Itinerary Source for a booking is how SAP Concur received the booking. The Booking Source is where the booking originated, which is usually a GDS or travel supplier name.

---

Be aware that for *TripIt* and *TripLink* itineraries, the **Record Locator** column on these Travel reports may display Manual, Manual\_0, Manual\_1, etc. in lieu of an actual record locator. This occurs when the email parser cannot parse the booking source name (supplier). When there is more than one such email for the same trip (example: if both car and hotel emails have parsing issues), we append \_0, \_1, \_2 at the end of 'Manual' to distinguish them from each other.

With *TripIt*, user email is forwarded to [plans@tripit.com](mailto:plans@tripit.com).

## Available Output Formats

For most reports, you can view them on-screen and download them in HTML, Microsoft® Excel, Microsoft® Access, CSV, TXT, XML, and PDF format. Some reports may have additional output options.

## Section 2: Assign Permissions, Assign Reports, and Access Reporting

### Professional Edition

This is a two-step process.

- The User Admin (or Permissions Admin) assigns the *Report Admin* permission to one or more users and the *Report User* permission to one or more users.
- Then, the Report Admin assigns specific reports to the Report User.

Once these steps are complete, the **Reporting** link and the assigned reports appear in SAP Concur for the Report User.

### ***Assign Report Admin and Report User Permissions***

The User Admin (or Permissions Admin) assigns the *Report Admin* and the *Report User* permission to one or more users.

#### ► ***To assign the reporting permissions:***

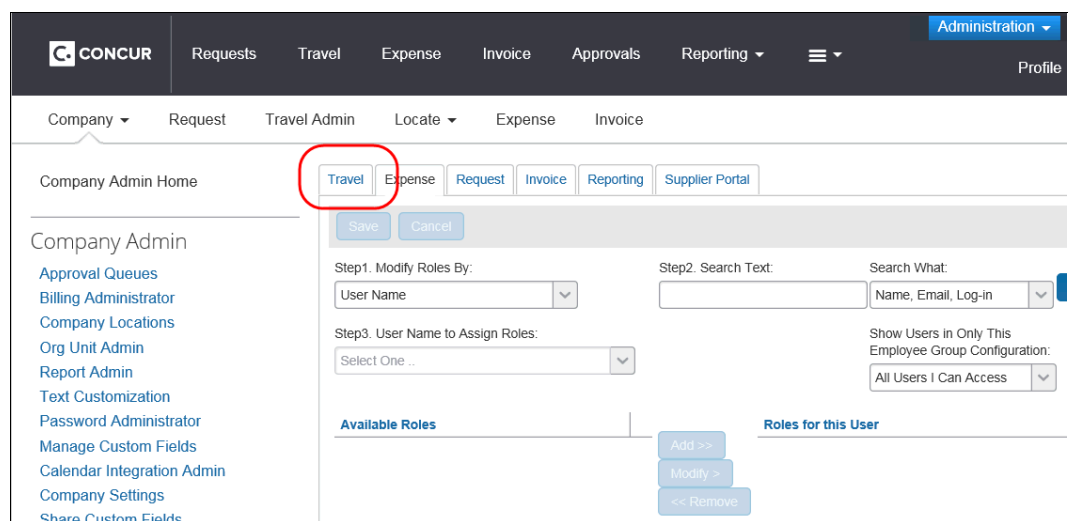

1. Click **Administration** > **Company** (on the sub-menu) > **Company Admin**.

---

**NOTE:** Depending on your permissions, the page may appear immediately after you click **Administration**.

---

2. In the **User Administration** section of the left menu, click **User Permissions**.
3. Click the **Travel** tab.

4. On the **Administer Company Permissions** page, in the **Modify Permission by** list, click *Permissions*, *Groups*, *Rule Classes*, or *Users*.

- ◆ Assign the *Report Admin* permission to one or more users. These Report Admins will assign reports to Report Users.
- ◆ Assign the *Report User* permission to one or more users. These Report Users will access and use the reports.

 For more information about User Admin, refer to the *User Admin User Guide*.

### **Assign Report Access by Report Name**

▶ **To assign report access by report name:**

1. Click **Administration** > **Company** (on the sub-menu) > **Company Admin**.

---

**NOTE:** Depending on your permissions, the page may appear immediately after you click **Administration**.

---

2. In the **Company Admin** section of the left menu, click **Report Admin**. The **Administer Report Permissions** page appears.
3. In the **Modify Reports by** list, click *Report Name* (if it is not already selected).

- In the **Report Name** list, click the desired report. This page appears.

Users/Groups with this Report

Add Remove

Save Back to Admin

- In the **Rename Report to** field, enter the new name, if desired.

---

**NOTE:** The report name you enter here appears to report users.

---

- In the **Owner** list, select the report owner, if any.
- In the **Users, Rule Classes and Groups** section (left side), select the desired users, rules classes, or groups.
- Click **Add**.
- Click **Save**.

### ***Assign Report Access by Group***

▶ ***To assign report access by group:***

- Click **Administration** > **Company** (on the sub-menu) > **Company Admin**.

---

**NOTE:** Depending on your permissions, the page may appear immediately after you click **Administration**.

---

2. In the **Company Admin** section of the left menu, click **Report Admin**. The **Administer Report Permissions** page appears.
3. In the **Modify Reports by** list, click *Groups*.
4. In the **Group Name** list, click the desired group. This page appears.

5. In the **Reporting** section (left side), click the desired reports.
6. Click **Add**.
7. Click **Save**.

### ***Assign Report Access by Rule Class***

▶ ***To assign report access by rule class:***

1. Click **Administration** > **Company** (on the sub-menu) > **Company Admin**.

---

**NOTE:** Depending on your permissions, the page may appear immediately after you click **Administration**.

---

2. In the **Company Admin** section of the left menu, click **Report Admin**. The **Administer Report Permissions** page appears.
3. In the **Modify Reports by** list, click *Rule classes*.

- In the **Rule Class Name** list, click the desired group. This page appears.

Modify Reports by: Rule Class Name:

Permissions for this Rule Class

---

- In the **Reporting** section (left side), select the desired reports.
- Click **Add**.
- Click **Save**.

### ***Assign Report Access by User***

▶ ***To assign report access by user:***

- Click **Administration** > **Company** (on the sub-menu) > **Company Admin**.

---

**NOTE:** Depending on your permissions, the page may appear immediately after you click **Administration**.

---

- In the **Company Admin** section of the left menu, click **Report Admin**. The **Administer Report Permissions** page appears.
- In the **Modify Reports by** list, click *Users*.

4. In the **User Name** list, select the desired user. This page appears.

The screenshot shows a web interface for assigning reports to a user. At the top, there is a section titled 'Modify Reports by: User Name:' with a dropdown menu set to 'Users' and a text input field containing 'Brown, Terry T'. Below this, the interface is divided into two main columns. The left column, titled 'Available Reports', contains a scrollable list of report names such as 'Concur Meetings -- Meeting Attendee Flight Details', 'Concur TripLink -- Concur TripLink By Air Supplier', and 'General -- Admin Password Changes'. The right column, titled 'Reports Assigned to Groups to which the User Belongs', contains a list of reports already assigned to the user, including 'Concur TripLink -- Concur TripLink By Car Supplier (Travel Adm)' and 'Travel -- Car Rental Details'. At the bottom of the interface, there are four buttons: 'Add' (to move reports from the left column to the right), 'Remove' (to move reports from the right column back to the left), 'Save' (to save the current assignment), and 'Back to Admin'.

5. In the **Available Reports** section (left side), select the desired reports.
6. Click **Add**.
7. Click **Save**.

### ***Remove Report Access***

▶ ***To remove access:***

1. In the **Company Admin** section of the left menu, click **Report Admin**.
2. As described above, click the desired report name, group, rule class, or user.
3. Click one or more reports.

4. Click **Remove**.
5. Click **Save**.

### Rename Reports

Refer to *Assigning Report Access by Report Name* in this guide.

### Access Reporting

The Report User can now clicks **Reporting > Travel Reports** to view the assigned reports.

The screenshot shows the Concur Reporting interface. The top navigation bar includes 'CONCUR', 'Requests', 'Travel', 'Expense', 'Invoice', 'Approvals', 'Reporting', 'Administration', and 'Help'. The 'Reporting' menu is open, showing 'Travel Reports' and 'Intelligence'. The main content area displays the 'Admin Password Changes' report. It includes a 'Recently Used' list with 'Admin Password Changes', 'Concur Travel Credit Cards', and 'Browser Report'. The 'General' section lists 'Admin Password Changes', 'Assistants in Company', 'Browser Report', and 'Concur Best Practices Dashboard'. A 'Date Range' section has dropdowns for 'By Month' (August), '2015', and 'HTML (display to Screen)', with a 'Submit' button. A warning message states: 'PLEASE RUN THIS REPORT FOR NARROW DATE RANGES ONLY - Large date ranges will likely timeout. If this report is run on a monthly basis then there is no need to check prior to that time range.'

## Standard Edition

The admin assigns the *Report User* permission to one or more users. Then, the **Reporting** link and all reports appear in SAP Concur for the Report User.

---

**NOTE:** In the Standard Edition, the Report User sees **all** reports. (Unlike the Professional edition where specific reports are assigned to the Report User.)

---

### Assign Permissions

▶ **To assign the reporting permissions:**

1. In the Travel Setup Wizard, click the **Manage Users** setup step.

---

**NOTE:** For integrated Travel and Expense customers, the **Users** step is part of the Expense Setup Wizard.

---

The screenshot displays the 'Setup Wizard' interface for 'sjl0715'. The 'MANAGE USERS' step is active, with a list of 14 steps on the left. Step 14, 'Manage Users', is highlighted with a red circle. The main area contains instructions on how to add or edit users, a search bar, and a table of users. The table has columns for 'Last Name / First Name', 'Email Address', 'Active', and 'Profile Access'. One user, 'Chapman, Chris', is listed with an 'Edit' link.

Last Name / First Name	Email Address	Active	Profile Access
Chapman, Chris	cc@sjl0715.com	Yes	

2. On the **Manage Users** page, the admin locates the desired user and clicks **Edit**.

- In the **Permissions** section, select (enable) the **Report user** check box.

**Permissions**

Guest booking ?

Report user ?

Admin Permission ?

### Access Reporting

The Report User can now click **Reporting > Travel Reports** to view the reports.

The screenshot shows the Concur Reporting interface. The top navigation bar includes 'CONCUR', 'Travel', 'Reporting', and 'App Center'. The 'Reporting' menu is expanded, and 'Travel Reports' is selected. The main content area displays 'Corporate Privacy Agreement Acceptance' with a 'Show this Report by default' option. Below this, there is a table with columns for 'Last Name (Begins With)', 'Status', and 'Accepted'. The table is currently empty. There is also an 'Export To' section with a dropdown menu set to 'HTML (display to Screen)' and a 'Submit' button.

### Section 3: Reports – Travel Section

You may not have access to all of these reports.

Report	Available to	Description	Report User Choices
<i>Air Adoption By Month</i>	<input checked="" type="checkbox"/> Professional <input checked="" type="checkbox"/> Standard	Shows the number of non-voided tickets purchased through SAP Concur and purchased directly by month  The percentage shown is the percentage of tickets booked in Concur Travel.	Itinerary source (All Sources, Concur Travel, TripIt, Indirect Concur TripLink, Direct Concur TripLink)  Date range  Display/export format

Report	Available to	Description	Report User Choices
		<p>hotel and a full passenger list.</p> <ul style="list-style-type: none"> <li>The <i>price</i> of a ticket is the fare plus all taxes. The <i>amount paid</i> is the amount of cash paid for the ticket. The amount paid is typically equal to the price, unless an exchange or other voucher is used as part of the payment. The amount paid is only displayed for tickets where that information is available.</li> </ul>	
<i>Southwest Credit Monitoring</i>	<input checked="" type="checkbox"/> Professional <input type="checkbox"/> Standard	<p>Shows unused Southwest ticket credit details; includes name, credit amount, record locators, etc.</p> <p>Note the following:</p> <ul style="list-style-type: none"> <li>This report makes it possible to see trips made by users in Concur Travel where a credit exists but was not applied. This may occur for certain trips because the credit is tied to a particular customer and should not be used but, in most cases, it results in a lost savings.</li> <li>This report shows what ticket credit could have been used to pay for the record locators listed in the last column (not what was applied to that trip).</li> <li>If a traveler uses their ticket credit outside of Concur Travel, it needs to be removed from their profile manually to prevent it from displaying in this report as a credit that should have been used.</li> </ul>	Display/export format
<i>Taxi/Limo Detail</i>	<input checked="" type="checkbox"/> Professional <input type="checkbox"/> Standard	<p>Shows ground transportation (limo, taxi) for vendors such as Deem and Taxi Magic; includes name, pick-up date/location, rates, amount, etc.</p> <p>Note that we will have either an hourly rate or an estimated amount but never both.</p>	Vendor (or all vendors)  Itinerary source (All Sources, Concur Travel, TripIt, Indirect Concur TripLink, Direct Concur TripLink)  Date range  Display/export format

Report	Available to	Description	Report User Choices
<i>Travel Assistants</i>	<input checked="" type="checkbox"/> Professional <input type="checkbox"/> Standard	Lists your company's travel assistants  Downloaded information; does not appear on the screen	Name Status (all, active, not active) Display/export format
<i>Travel Policy Exceptions</i>	<input checked="" type="checkbox"/> Professional <input checked="" type="checkbox"/> Standard	Shows all trips booked in Concur that violated rules at the time of booking; includes name, dates, violation code, etc.  Note the following: <ul style="list-style-type: none"> <li>• Withdrawn/Canceled trips are not included.</li> <li>• If your company is configured for automated reporting from the GDS, click the link in the <b>Record Locator</b> column to access the current itinerary for the trip.</li> <li>• This report shows one line per rules violation. This means that the same trip can appear multiple times if the trip had multiple rules violations.</li> <li>• The "Quoted Segment Price" is the price quoted in Concur for the air, car, or hotel segment that violated the rule listed.</li> </ul> <p><b>Business Significance:</b></p> <ul style="list-style-type: none"> <li>• Analyze policy violations to learn where to adapt the travel booking process to those trends. For example, Travel Managers can analyze which exceptions are coming up most frequently, they can then determine whether to make those exceptions universal or keep them one-off.</li> <li>• This is a good source of reference when a Manager needs to re-visit an expense that was in violation of company policies.</li> <li>• Understand why Travel users might be declining lower fares.</li> </ul>	Date range Display/export format

Report	Available to	Description	Report User Choices
<i>Travel Spend Summary</i>	<input checked="" type="checkbox"/> Professional <input type="checkbox"/> Standard	Shows total travel spend; includes total tickets/ spend, premium tickets/spend, coach tickets/spend	Travel start date Display/export format
<i>Trip Approvals</i>	<input checked="" type="checkbox"/> Professional <input type="checkbox"/> Standard	Shows approval information for trips approved during the specified date range; includes name, date, approvers, etc.	Date range Display/export format
<i>Trips Needing Approval</i>	<input checked="" type="checkbox"/> Professional <input checked="" type="checkbox"/> Standard	Shows all trips that still need approval; includes name, approval information, etc.  Note the following: <ul style="list-style-type: none"> <li>• By default, the report includes only trips where the date of first travel is on or after today. However, all other trips needing approval can be viewed by selecting <i>All Trips</i> from the <b>Trips to Include</b> list.</li> <li>• Trips with no date of first travel are typically trips that were withdrawn by an agent and, thus, have no segments on the itinerary. This can be confirmed by viewing the itinerary.</li> <li>• For audit trail reasons, the traveler needs to withdraw the trip from My Requests before this report will show the trip as no longer needing approval.</li> </ul>	Trips to include Display/export format
<i>Unused Tickets</i>	<input checked="" type="checkbox"/> Professional <input checked="" type="checkbox"/> Standard	Shows active unused tickets details; includes login ID, email address, fare, fees, expiration date, etc.	Display/export format
<i>User Concur Travel History</i>	<input checked="" type="checkbox"/> Professional <input checked="" type="checkbox"/> Standard	Shows trips for a given time period; includes name, dates, approvers, etc.  If you are a travel administrator and the trip still needs approval, you can approve the trip by clicking the <b>View Request</b> link.  Note the following: <ul style="list-style-type: none"> <li>• Click the <b>Record Locator</b> link to view the current version of the itinerary.</li> </ul>	Name (or blank for All) Company (or blank for All) Trip request status Booking source (All, Concur, or agent) Date range Display/export format

Report	Available to	Description	Report User Choices
		<ul style="list-style-type: none"> <li>Click the <b>View Request</b> link to view the current version of the Concur Travel request, including complete approval history and manager comments.</li> <li>For the <b>Trip Request Status</b> column, remember that cars and hotels are reserved as soon as the booking is completed.</li> </ul> <p>"Awaiting Ticketing" means that the air tickets have not been issued, but the car/hotel has been reserved.</p> <p>"Ticketed/Reserved" means that the air tickets have been issued if there are any needed for that trip, and car/hotel has been reserved. Trips that have no air segments will go straight to "Ticketed/Reserved" when the approval occurs.</p> <ul style="list-style-type: none"> <li>Reminder: Travelers need to cancel rejected trips themselves in order to cancel the hotel and car reservations.</li> <li>Only trips booked online through Concur and agent-booked trips where we could determine the user are included. Agent-booked trips that we could not map to a user account are not included because those trips have no workflow to monitor.</li> </ul>	
<i>User Supplied Hotels</i>	<input checked="" type="checkbox"/> Professional <input type="checkbox"/> Standard	Shows information on hotels that were not reserved through the agency or reservation system but instead were manually provided by the traveler; includes name, hotel, dates, rates, reason, etc.  Note the following: <ul style="list-style-type: none"> <li>Frequently these are conference hotels or meeting hotels, but some of these will be hotels where the traveler simply booked outside of the agency channel.</li> </ul>	Date range  Display/export format
<i>Voided Tickets</i>	<input checked="" type="checkbox"/> Professional	Shows each individual ticket voided during the time	Vendor (or all vendors)

Report	Available to	Description	Report User Choices
	<input checked="" type="checkbox"/> Standard	<p>period specified; includes name, amount, dates, etc.</p> <p>Note the following:</p> <ul style="list-style-type: none"> <li>• If an itinerary contains multiple voided tickets for the traveler, each ticket appears on its own line.</li> <li>• If an itinerary involves travel by multiple passengers – so that there were multiple tickets voided – then each ticket appears on its own line, and the passenger listed for all tickets will be the primary passenger on that itinerary.</li> <li>• Click the link in the <b>Record Locator</b> column to view details on the entire itinerary, including car and hotel and a full passenger list.</li> <li>• The <i>price</i> of a ticket is the fare plus all taxes. The <i>amount paid</i> is the amount of cash paid for the ticket. The <i>amount paid</i> is typically equal to the <i>price</i>, unless an exchange or other voucher is used as part of the payment. The <i>amount paid</i> is only displayed for tickets when that information is available.</li> </ul> <p><b>Business Significance:</b></p> <ul style="list-style-type: none"> <li>• Allows Travel Managers to easily manage credits and lost dollars due to voided tickets.</li> <li>• Provides Managers a source of reference when they need to re-visit a voided ticket.</li> </ul>	<p>Advance purchase</p> <p>Booking source (All, Concur, or agent)</p> <p>Itinerary source (All Sources, Concur Travel, TripIt, Indirect Concur TripLink, Direct Concur TripLink)</p> <p>Date range</p> <p>Display/export format</p>
