## Supported Configurations

### Supported Browsers

#### **Overview**

Because web browsers are frequently updated, for ease of maintenance and to ensure that our documented supported browser information does not become out of date, we no longer publish the specific version data for supported browsers in the *Concur Travel & Expense Supported Configurations Guide*. In addition, the *Monthly Browser Certifications* document is now retired and will no longer be updated with supported browser version information each month.

For the most responsive, reliable, and secure user experience with our products, SAP Concur recommends that users implement the most recent technology that is compliant with manufacturer's distribution and your company's support and security policies.

For more supported browser information, refer to the [Concur Travel & Expense Supported Configurations Guide](#).

#### **BUSINESS PURPOSE / CLIENT BENEFIT**

This change helps to ensure that the supported browser information in the *Concur Travel & Expense Supported Configurations Guide* remains up to date.

Providing up-to-date supported browser information to users ensures that they have a better user experience while accessing the web version of SAP Concur.

#### **Configuration / Feature Activation**

This change is automatically available.
