Release Notes

This document contains the release notes for Concur Expense standard edition.

NOTE: Features and changes that apply to SAP Concur site-wide or to multiple products/services are documented in the *Shared Changes Release Notes*. For information about site-wide or shared changes in this release that might impact your SAP Concur solutions, refer to the [Shared Changes Release Notes](#).

Cards

VISA: Reduction of Required Attributes for Generating Rich Data for Cards

Overview

With this release, the attributes required to generate rich data output for company cards is now reduced in number for all import formats (except in the CDF3 format where this requirement was already present). This change allows for all card import formats to have more transactions flagged as rich data in Expense.

The attribute **Arrival Date** is now removed from the list of required attributes in the Visa format. Clients should consider if this feature change impacts the way they work with their receipts.

BUSINESS PURPOSE / CLIENT BENEFIT

This change will result in a more consistent rich data experience and more card transactions rendered in rich data format.

Configuration / Feature Activation

The feature is automatically available; there are no additional configuration or activation steps.

Japan Public Transport (JPT)

Support End Notice for Legacy JPT

All Concur Expense customers using legacy JPT (JPT 1.0) will be automatically migrated to JPT on NextGen UI (NUI) effective October 1. Support for legacy JPT ends on September 30, 2022. The team will no longer investigate or fix issues reported by CRMC tickets if the issue is reproduced on legacy JPT but not on JPT on NUI. If updates are required on the existing legacy JPT expenses, we recommend that you create new expenses on JPT on NUI and delete the old ones.

For any JPT on NUI support, authorized support contacts can submit a support case through the Customer Support portal.

NextGen UI

****Ongoing** Updated User Interface (UI) for Concur Expense End Users**

Information First Published	Information Last Modified	Automatic Transition Date
Mar 2018	Oct 7, 2022	Oct 1, 2022
Any changes since the previous monthly release are highlighted in yellow in this release note.		

Overview

The continued evolution of the Concur Expense solution user interface experience is the result of thoughtful design and research that provides a modern, intuitive, and streamlined experience for creating and submitting expense reports.

Concur Expense customers were strongly encouraged to preview and then move to the NextGen UI well before the automatic transition that began **October 1, 2022**.

BUSINESS PURPOSE / CLIENT BENEFIT

The result is the next generation of the Concur Expense user interface designed to provide a modern, consistent, and streamlined user experience. This technology not only provides an enhanced user interface, but also allows us to react more quickly to customer requests to meet changing needs as they happen.

Products and Users Affected

To take advantage of these improvements, Concur Expense customers who did move before October 1, 2022 are being automatically transitioned to the NextGen UI for Concur Expense beginning October 1, 2022. The following provides information about the timeline and resources available to ensure this process is smooth and efficient for all users.

These UI changes apply to:

- Concur Expense (Professional/Premium and Standard) end users only

NOTE: There are no changes for approvers, processors, or admins.

IMPORTANT: Timeline and Milestones

There are four important milestones for Concur Expense customers as they transition from the existing UI to the NextGen UI.

1. **Early Access Period:** March 2018 – July 2020

During this time, the updated UI was available to preview for customers worldwide. We encouraged administrators/power users to use the Early Access Period to preview the refreshed interface, update internal training materials, and prepare the organization for the transition.

2. **Opt-In Period:** July 2020 – September 2021

Following the Early Access Period was an open Opt-In Period. This milestone was marked by the delivery of most planned features as well as further overall product quality and stability.

Customers should use this period to plan their transition and move to the NextGen UI for Concur Expense when it is right for your business priorities. Some remaining features will become available throughout this period, so customers should plan their roll out accordingly.

3. **Active Move Period:** October 2021 – September 2022

This is the 12-month notice period we committed to for customers to complete the transition at their own pace before the automatic transition date.

Customers are strongly encouraged to complete the tasks necessary to ensure a smooth transition for their organization and then transition during the Active Move Period.

4. **Automatic Transition Date:** **Began** October 1, 2022

All customers are being automatically transitioned to the NextGen UI beginning October 1, 2022. This ensures that we continue to offer a consistent user experience for all customers and allows for superior product innovation and support.

Transition Materials – Guides and Other Resources

We offer several guides, FAQs, release notes, and other resources to help in the transition. All the information that an organization needs to get started is available here:

- [Professional Edition](#)
- [Standard Edition](#)

The links above provide access to the following:

- **Admin guides, FAQs, transition resources:** The admin guide provides information about accessing the NextGen UI for Concur Expense and the roles/permissions required.

Along with the admin guide, there are FAQs, other resources (such as e-mail templates and other training materials), and a list of features that are not yet available in the NextGen UI for Concur Expense. All of these materials can be used to help customers prepare their users.

NOTE: To help with training needs, customers can use the admin guide and end-user guide "as is" or they can use any part of them to create training materials. Customers can cut, copy, paste, delete, or edit either guide at will.

- **End-User guide:** This guide compares the existing UI to the NextGen UI for Concur Expense to help users become comfortable with the new experience. This guide will be updated as needed during the Opt-In Period as the NextGen UI is being enhanced. Admins should review the guide often.
-

NOTE: Like the admin guide, the organization can cut, copy, paste, delete, or edit this guide at will.

- **Release information:** During the Active Move Period, the release of enhancements will **not** be on the regular release schedule. Instead, we will provide special information about features and enhancements that are nearing release.

As of the May 2022 release, release notes for the NextGen UI can be found within this release note document. The statement *These changes are part of the NextGen UI experience* is displayed at the beginning of each NextGen UI release note.

Planned Changes

The items in this section are targeted for future releases. SAP Concur reserves the right to postpone implementation of – or completely remove – any enhancement/change mentioned here.

NOTE: The planned changes listed in this document are specific to this product. For information about planned site-wide or shared changes that might impact your SAP Concur solutions, refer to the [Shared Changes Release Notes](#).

Bank Information

****Planned Changes** Western Union Business Solutions Rebranding to Convera**

Information First Published	Information Last Modified	Feature Target Release Date
October 2022	--	January 2023
Any changes since the previous monthly release are highlighted in yellow in this release note.		

Overview

Expense Pay payment provider Western Union Business Solutions (WUBS) was acquired in 2021. They have now officially rebranded as Convera.

BUSINESS PURPOSE / CLIENT BENEFIT

To support SAP Concur's payment processing partner Convera, the Expense Pay, Global Pay, and Payment Manager user interfaces and documentation will be updated to reflect the most current rebranded name.

User Experience

User interface components such as labels, messages, and documentation that show Western Union or Western Union Business Solutions will be now display Convera.

Configuration / Feature Activation

The change will be automatically available; there are no configuration or activation steps.
