# Release Notes

---

## iPhone / iPad – Operating System Update

SAP Concur updates the minimum operating system regularly in order to ensure the best possible experience for mobile users. With this release, SAP Concur will update the minimum operating system to iOS 11.

The December release (9.64) was the **final** release for version 10 of the iPhone / iPad operating system.

Please ensure that the operating system on all user devices has been updated to at least iOS 11.

Be aware that users will not be forced to upgrade their device's operating system, but users on older operating systems will not be able to install versions of the SAP Concur mobile app after v9.64.

---

**NOTE:** For SAP Concur – and all other mobile apps – encourage your users to keep their operating systems (and devices, if possible) current.

---

## Android – Operating System Update

SAP Concur updates the minimum operating system regularly in order to ensure the best possible experience for mobile users. With this release, SAP Concur will update the minimum operating system to API 23 (v6.0).

The December release (9.64) will be the **final** release for versions v5.0, 5.1 (Android Lollipop API 22 & 23) of the Android operating system.

Please ensure that the operating system on all user devices has been updated to at least API 23 (v6.0).

Be aware that users will not be forced to upgrade their device's operating system, but users on older operating systems will not be able to install versions of the SAP Concur mobile app after v9.64.

---

**NOTE:** For SAP Concur – and all other mobile apps – encourage your users to keep their operating systems (and devices, if possible) current.

---

## **\*\*Reminder\*\* Android / iPhone / iPad – ExpenseIt: On-Device Receipt Recognition**

*This feature was implemented after the December (9.64) release and this release note is a reminder that this feature is now fully implemented and ready to use.*

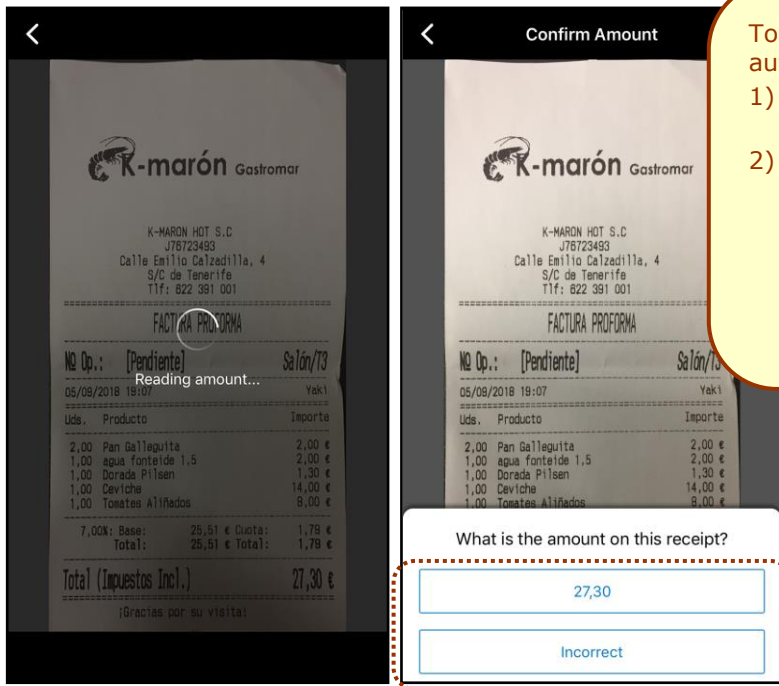

With this release, ExpenseIt users now have access to the new ExpenseIt on-device receipt recognition feature - within the SAP Concur mobile app. Adding this technology enables users to process certain receipt information directly from the SAP Concur mobile app, instead of that information being processed in a server.

On-device processing will increase both speed and accuracy as well as allow SAP Concur to support an offline experience.

When the user captures a receipt in ExpenseIt the on-device receipt recognition feature will pick the top amount found on the receipt and propose it for use. If the amount is not found or incorrect, the user can enter it manually.

## On-Device Receipt Recognition - iPhone

### Automatically Detect Receipt Amount

To convert a receipt amount automatically in ExpenseIt:

1) On the home screen, tap **ExpenseIt**.

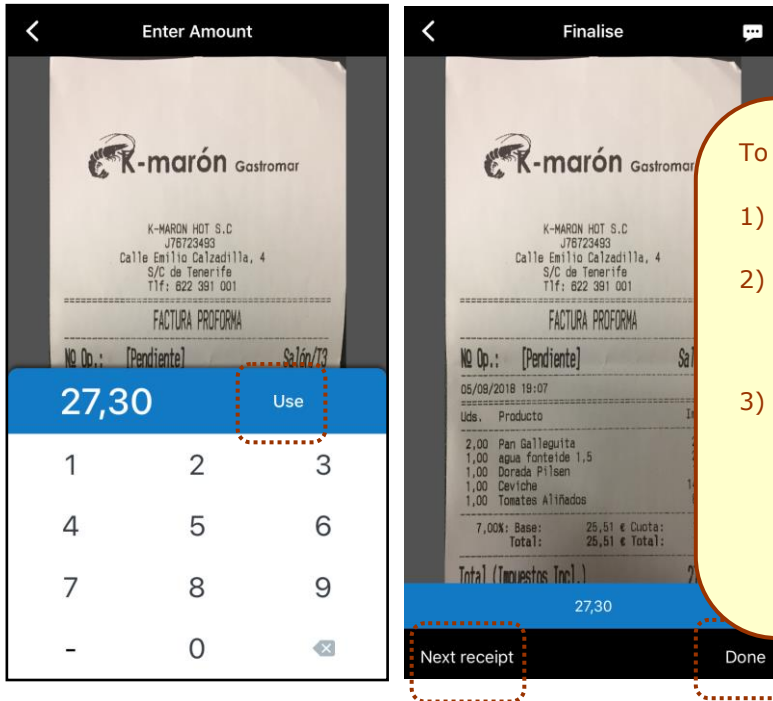

2) On the **Confirm Amount** screen, either:

- ◆ Tap the amount.

-or-

- ◆ Tap **Incorrect** to enter an appropriate amount.

## Manually Enter the Correct Receipt Amount

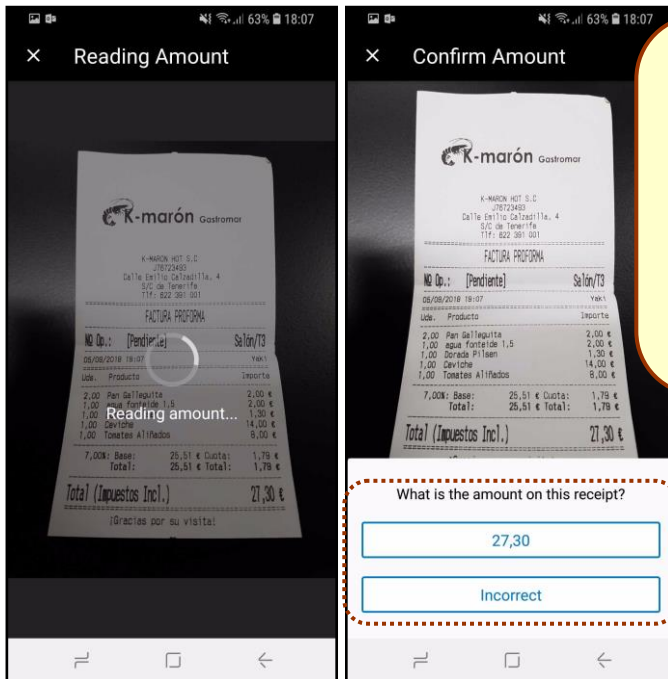

To manually enter the correct receipt amount:

- 1) On the **Confirm Amount** screen, tap **Incorrect**.
- 2) On the **Enter Amount** screen, enter the appropriate amount and tap **Use** when finished.
- 3) On the **Finalise** screen, either:
  - ♦ Tap **Next receipt** to go to the next receipt.
  - or-
  - ♦ Tap **Done** to finish.

## On-Device Receipt Recognition - Android

### Automatically Detect Receipt Amount

To convert a receipt amount automatically in ExpenseIt:

- 1) On the home screen, tap **ExpenseIt**.
- 2) On the **Confirm Amount** screen, either:
  - ♦ Tap the amount.
  - or-
  - ♦ Tap **Incorrect** to enter an appropriate amount.

### Manually Enter the Correct Receipt Amount

To manually enter the correct receipt amount:

- 1) On the **Confirm Amount** screen, tap **Incorrect**.
- 2) On the **Enter Amount** screen, enter the appropriate amount and tap **Use** when finished.
- 3) On the **Finalise** screen, either:
  - ♦ Tap **Next receipt** to go to the next receipt.
  - or-
  - ♦ Tap **Done** to finish.

### **\*\*Reminder\*\* Android / iPhone / iPad – Multipage Receipt Capture in ExpenseIt**

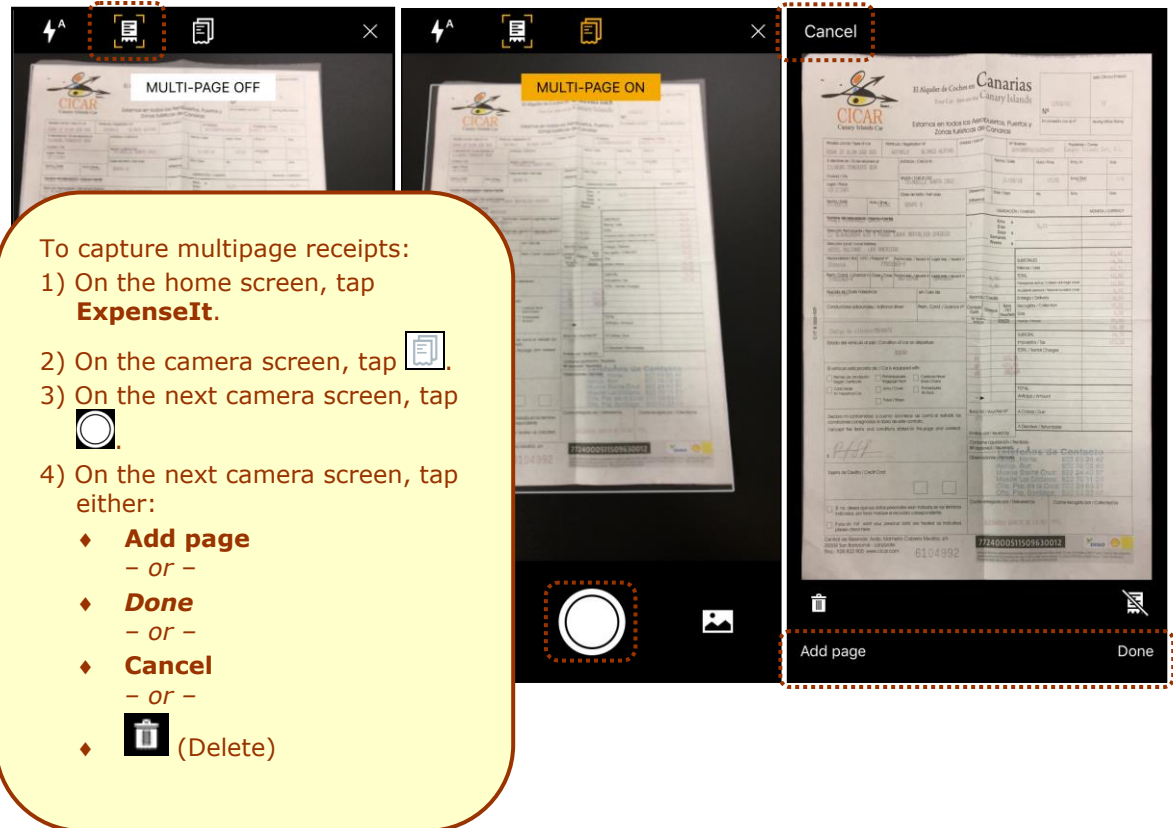

*This feature was implemented after the December (9.64) release and this release note is a reminder that this feature is now fully implemented and ready to use.*

With this release, SAP Concur announces that the new multipage capture feature will be available to ExpenseIt users in the SAP Concur mobile app. This feature enhances the user experience and will be available to ExpenseIt users over a period of time.

This feature enables users to capture their receipts with multiple pages (for example hotel invoices or phone bills) directly into the SAP Concur mobile app, instead of sending an email or by other means.

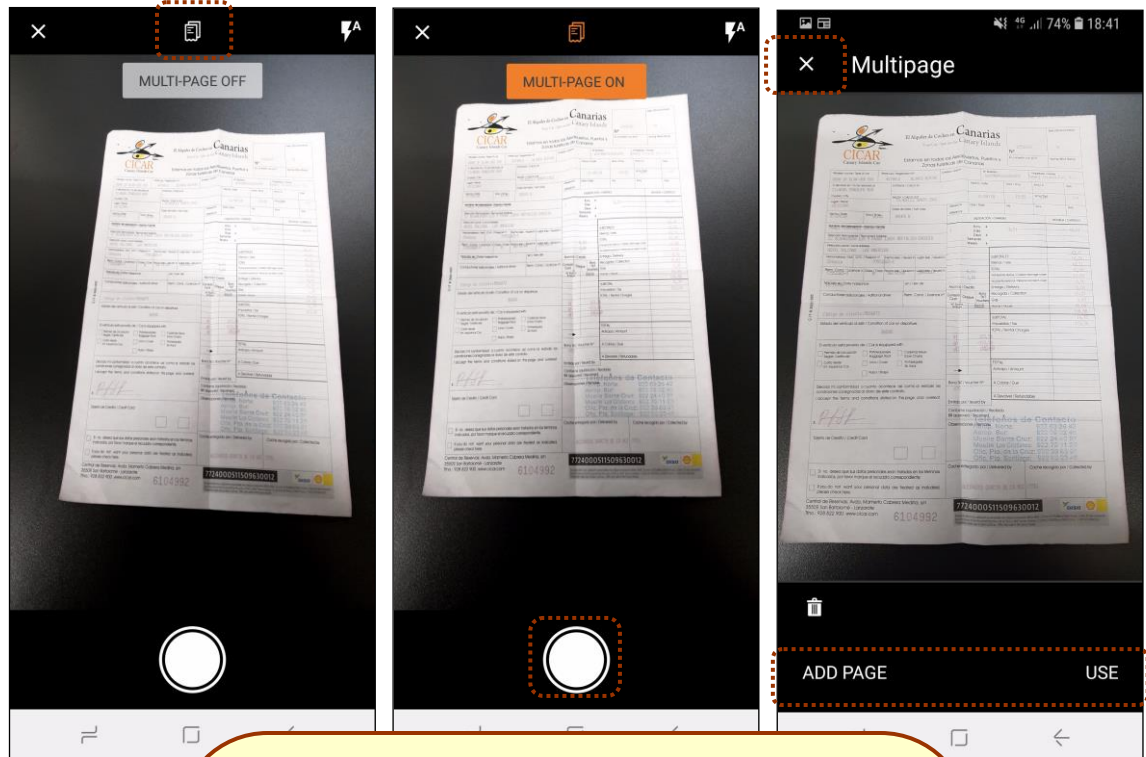

## Capture Multipage Receipts on Your iPhone Device

### *iPhone*

## Capture Multipage Receipts on Your Android Device

### Android

To capture multipage receipts:

- 1) On the home screen, tap **ExpenseIt**.
- 2) On the camera screen, tap .

  - ♦ **Add page**  
– or –
  - ♦ **Use**  
– or –
  - ♦  (Exit)  
– or –
  - ♦  (Delete)

# Android ONLY – New Create Report Process and Report Details Screen

## Overview

Earlier this year, the new **Report List** screen was launched on iOS with the **Active** and **History** tabs, allowing users to more easily view their active and prior reports. With this release, SAP Concur is excited to introduce improvements to this experience - **for Android users only** - by creating a new report and viewing the report screen with in the SAP Concur mobile app.

The new screens are designed to bring a more consistent, clean, and easy-to-use experience for users. For report creation, we have focused on better utilizing in-page editing and how users are able to select from lists, calendars, etc.

The new report screen continues this streamlined experience by allowing users to more easily toggle between their report header information, the list of available expenses, and any receipts that are presently attached to the report. With this improved view, users will be able to glean more information about their expense report in a shorter period of time, expediting expense report creation and submission.

## Enable/Disable for Changes

This new experience can be enabled/disabled via the **Report Detail Experience** toggle, which the user can find by navigating from the side-menu on the home screen to **Concur Settings > Beta Features**. This option can be utilized if a user encounters a blocking issue and they need to continue working in the legacy version of the **Report Details** screen.
