Version Information

Supported Phone OS

Device	Operating System
Apple iPhone	Version 13.0 or greater – users will be able to upgrade to the current version
Apple iPad	Version 13.0 or greater – users will be able to upgrade to the current version
Google Android	Version 8.0 or greater – users will be able to upgrade to the current version

Supported Mobile Versions

Note the following:

- Applicable for 9.97 and newer: If the current mobile app on your mobile device is older than the two latest versions, you will be notified - through a Message Center message and push notifications – that you should update the app to the latest version.

- If you have a version of the app older than the last 4 versions on your mobile device, you will see an upgrade notice on the login page and will need to update the app to the latest version or you will no longer be able to access the SAP Concur mobile app on your device.

   NOTE: The SAP Concur mobile app will not be removed from mobile devices that have a version of the app older than the last 4 versions.

   For more information on the retention policy, refer to this *FAQ*.

Release Notes

Android / iPhone / iPad –Automatically Match Expenses Within an Open Report Supported

Overview

With the March (9.100) Mobile release, mobile users will now have their expenses automatically matched with other expenses within an open report within the SAP Concur mobile app.

When a mobile user opens an expense report, the system automatically checks for matching expenses in the expense list on the **Expenses** screen. If the system finds matching expenses, the following events occur:

- A banner appears at the top of the **Report** screen

- The system links each matching pair of expenses

NOTE: Mobile users are currently unable to undo a match within the mobile app or in the web version of SAP Concur.

BUSINESS PURPOSE / CUSTOMER BENEFIT

This new feature provides mobile users with a more streamlined experience between the mobile app and the web version of SAP Concur.

What the User Sees

iPhone

On the **Report** screen, mobile users will see a link icon for each expense that is matched with another expense within the open report.

Business Meals - Meetings $450.00

Aug 3, 2019

Tavern Hall - Bellevue, Washington USA
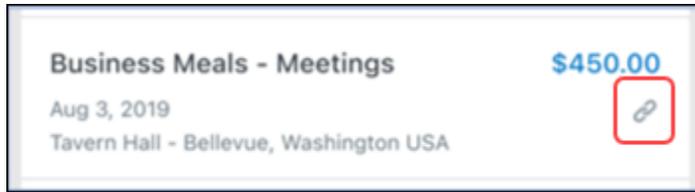

Mobile users will also see this icon/message on the **Expense** screen.

> **NOTE:** At this time, mobile users are unable to tap on this icon/message to view the matched expenses.

Configuration / Feature Activation

The feature is automatically available; there are no configuration or activation steps.

Android / iPhone / iPad – Allow OCR and QR for the e-Fapiao

Overview

Configuring the upload method for e-fapiao allows the company to regulate if the type of e-fapiao uploaded is as per the company's requirements. The option lets the client decide to enable upload of either the OCR or QR image types for e-fapiao or, instead, require upload of the original e-fapiao by disabling this option and requiring the upload of the original e-fapiao file.

BUSINESS PURPOSE / CLIENT BENEFIT

This update allows the customer to customize the fapiao upload method according to their requirements.

SAP Concur Release Notes   Page 7   SAP Concur's mobile app
Version 9.100 - Associated web release: March 2022   Client – FINAL
Initial Post: Friday, April 15

What the User Sees

On the Concur **Settings** screen, the **Allow OCR or QR for the e-Fapiao** option can be enabled or disabled as per the company's requirement. If your company requires uploading the original e-fapiao file, this option will be disabled.

Users with Expense Processor and Processor Manager roles can only manage this configuration.
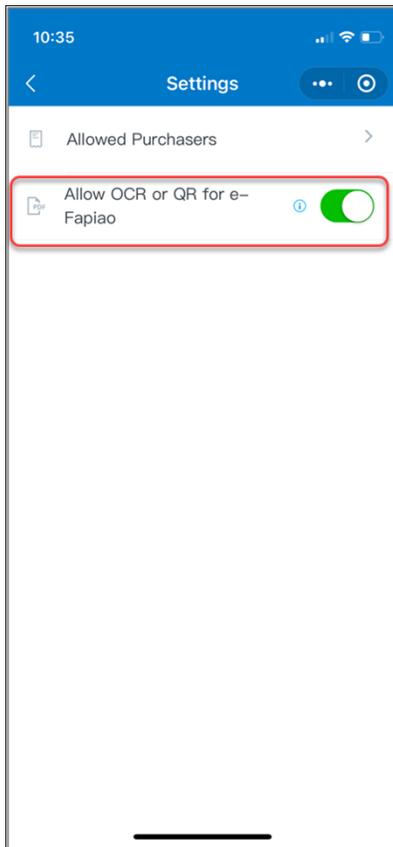

Configuration / Feature Activation

This change is automatically available; there are no configuration or activation steps.

    📖   For more information, refer to the *Mobile App User Guide SAP Concur Fapiao Capture*.
