The information in this presentation is confidential and proprietary to SAP SE or an SAP affiliate company and may not be disclosed without the permission of SAP SE or the respective SAP affiliate company. This presentation is not subject to your license agreement or any other service or subscription agreement with SAP SE or its affiliated companies. SAP SE and its affiliated companies have no obligation to pursue any course of business outlined in this document or any related presentation, or to develop or release any functionality mentioned therein. This document, or any related presentation and SAP SE or an SAP affiliate company's strategy and possible future developments, products and or platforms directions and functionality are all subject to change and may be changed by SAP SE and its affiliated companies at any time for any reason without notice. The information in this document is not a commitment, promise or legal obligation to deliver any material, code or functionality. This document is provided without a warranty of any kind, either express or implied, including but not limited to, the implied warranties of merchantability, fitness for a particular purpose, or non-infringement. This document is for informational purposes and may not be incorporated into a contract. SAP SE and its affiliated companies assume no responsibility for errors or omissions in this document, except if such damages were caused by SAP SE or an SAP affiliate company's willful misconduct or gross negligence.

All forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates, and they should not be relied upon in making purchasing decisions.

Version Information

Supported Phone OS

Device	Operating System
Apple iPhone	Version 14.0 or greater – users will be able to upgrade to the current version
Apple iPad	Version 14.0 or greater – users will be able to upgrade to the current version
Google Android	Version 8.0 or greater – users will be able to upgrade to the current version

Supported Mobile Versions

Note the following:

- Applicable for 9.101 and newer: If the current mobile app on your mobile device is older than the two latest versions, you will be notified - through a Message Center message and push notifications – that you should update the app to the latest version.
- If you have a version of the app older than the last three versions on your mobile device, you will see an upgrade notice on the login page and will need to update the app to the latest version or you will no longer be able to access the SAP Concur mobile app on your device.

NOTE: The SAP Concur mobile app will not be removed from mobile devices that have a version of the app older than the last three versions.

For more information on the retention policy, refer to this [FAQ](#).

Release Notes

iPhone / iPad – iOS Version 13 No Longer Supported

Overview

Information First Published	Information Last Modified	Feature Target Release Date
June 8, 2022	July 11, 2022	June 2022 (9.103.1)

SAP Concur solutions updates the minimum operating system regularly to ensure the best possible experience for mobile users. With this release, SAP Concur solutions will update the minimum operating system to iOS 14.

The May (9.102) Mobile release was the **final** release for version 13 of the iPhone / iPad operating system. Please ensure that the operating system on all user devices have been updated to at least iOS 14. Be aware that users will not be forced to upgrade their device's operating system, but users on older operating systems will not be able to install versions of the SAP Concur mobile app with the release of 9.103.1.

NOTE: For SAP Concur solutions – and all other mobile apps – encourage your users to keep their operating systems (and devices, if possible) current.

Configuration / Feature Activation

The change occurs automatically; there are no additional configuration or activation steps.

Android / iPhone / iPad – New Upload File Button Supports Upload of Receipts From Shared File Repository

Overview

With this release, the SAP Concur Mobile app supports uploading a receipt image (such as a PDF) using a new **Upload File** button, available when working with an expense at the report, details, or list levels.

This means that a receipt shared to a phone's common file repository from any other app (Gmail; Slack; etc.) may be uploaded directly from the repository to an expense using this new button functionality.

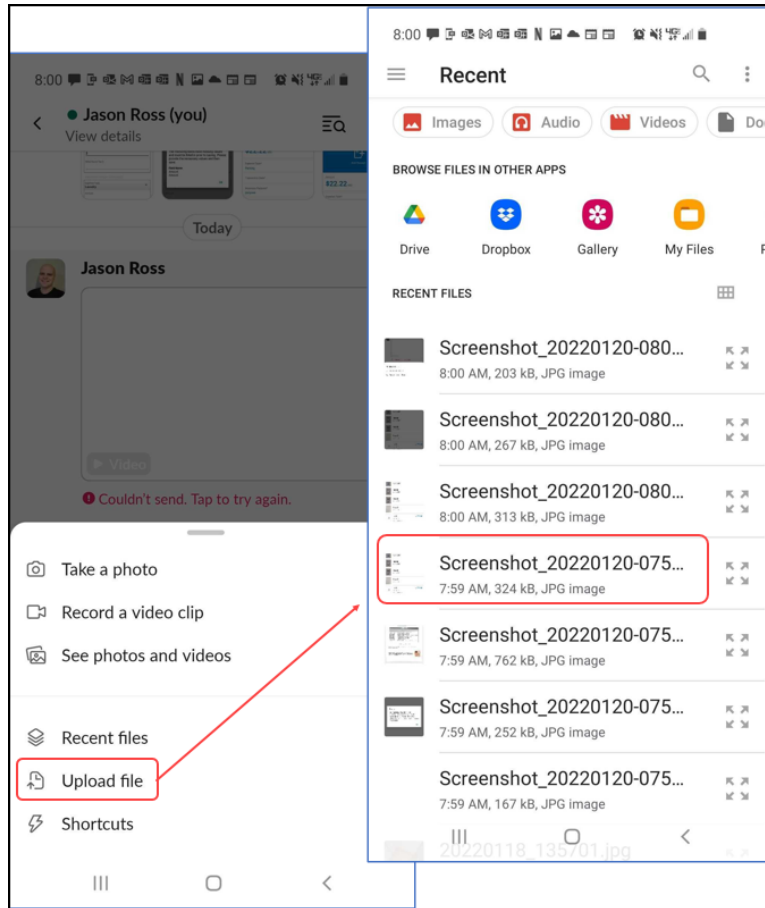

Conditions

Note the following when using this functionality:

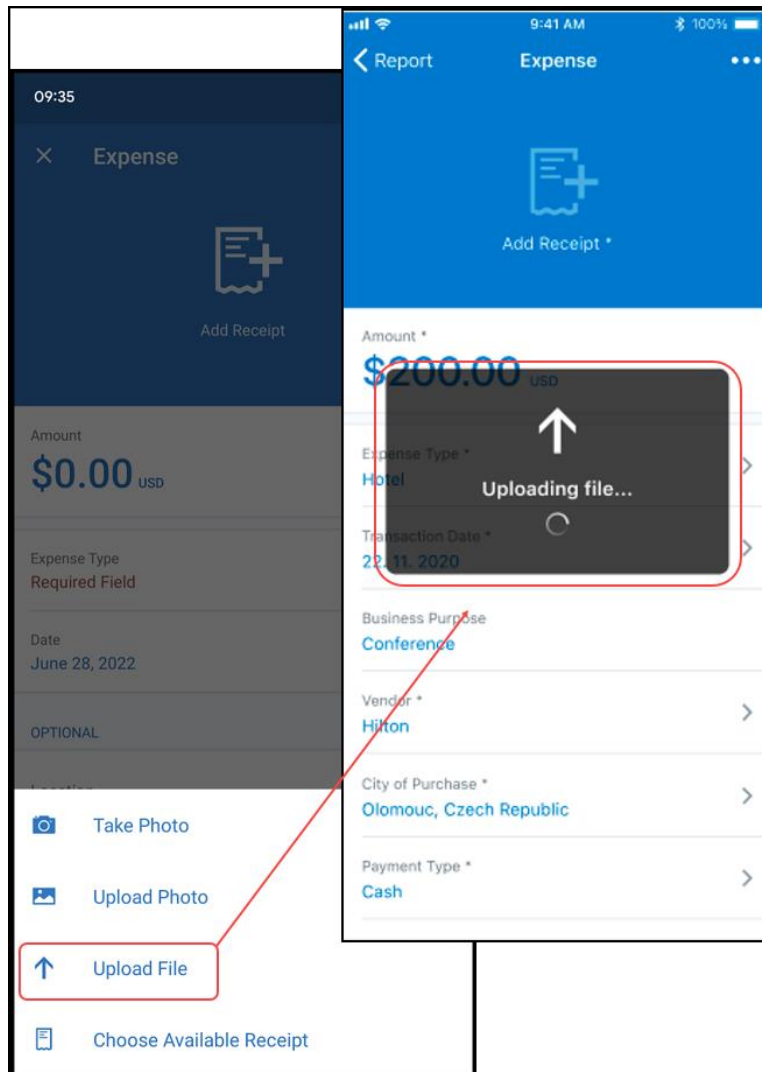

- The size of the PDF:
 - ◆ Cannot exceed 10 MB for most users
 - ◆ Cannot exceed 45 MB for GRDC and eBunsho users
- GRDC users:
 - ◆ Will always see a message indicating that the receipt cannot be certified
 - ◆ Can only upload the PDF file to a Single Expense List view
- Offline mode is supported for all scenarios

How it Works

The receipt is shared from the source app to the **Recent** file repository shared by all the phone's apps (Slack's Upload file shown below).

The Mobile user may then attach the receipt using the **Upload File** button.

Any of the following methods are available depending on the preferred navigation for attachment (List; Details; Report) and any restrictions:

- **Single Expense List:** Tap + > Add Receipts > Upload File
NOTE: This is the *only* method supported for GRDC users.
- **Expense Details:** Tap Add Receipt > Upload File
- **Expense Report:** Tap View Receipt > Append Receipt > Upload File

Configuration / Feature Activation

The change occurs automatically; there are no additional configuration or activation steps.

For more information, see the *Mobile App User Guide – Receipts* guide.

Planned Changes

There are no planned changes this month.
